KEY PROJECT PROFILE

WallCote™ Protection System Stopped the Leaks H&H Firearms FORT WAYNE, INDIANA

"I've spent thousands of dollars trying to fix the water problem, thinking all the time it was the roof. Finally, Bob Schenkel of C.L. Schust Co., identified that the leaks were actually coming through the walls. He solved my problem by applying the WallCote product to the split face block walls. It not only stopped the water, but WallCote makes my building look like new! This is a great coating that works."

William Hartsing, President
H & H Firearms

Job Details

Location: Fort Wayne, IN

Job Size: 6,500 sq. ft. (vertical surface)

Building Owner

H&H Firearms
1525 Directors Row
Fort Wayne, Indiana 46808
Bill Hartsing, President

Roofing Contractor

C.L. Schust
5007 New Haven
Fort Wayne, IN 46803
Bob Schenkel, President

Key Facts:

- Building is a 13,000 square feet (14' high) retail store
- The walls are all split face block

Problem:

- Block building has endured leaking problems since 1985
- Previous attempts to waterproof the block walls had failed
- Retail owner has had severe water damage to the interior of his building over the years
- Maintain the aesthetic value of the highly visible retail building
- No interruption of tenant's day-to-day business (or fumes) was acceptable

Solution:

- **WallCote™ Exterior Wall Protection System using WallCote™ Block Primer and WallCote™ Elastomeric Wall Coating in Stone Gray**

Benefits:

- There was no disruption to the tenant's operation
- Owner has peace of mind and satisfaction that his ongoing moisture problems have been cured – allowing him to replace badly stained carpeting and make long awaited changes to his store
- Every split face block, seam and crack were sealed and will not be exposed to the elements including water, snow and ice
- Elastomeric membrane will stay flexible at extremely cold temperatures and resist degradation from extreme heat, sun and humid climates
- System will resist problems associated with fungus, mildew and the harmful effects of the sun
- WallCote™ Exterior Wall Coating System is backed by a 10-year limited warranty from GAFMC, North America's largest roofing manufacturer

WALLCOTE™

- **Versatile...** Formulated to protect exterior walls, including vinyl and aluminum siding, wood, concrete, masonry and metal
- **Specially Formulated...** With higher solid content than paints to restore most exterior wall surfaces – providing longer protection; high build functional membrane is 14 mils vs. paint at 3-5 mils
- **Proven...** To provide stronger resistance to discoloration and fading while helping to resist blistering, flaking and peeling
- **Long Lasting...** Warranted for up to 10 years*

*See Warranty for complete coverage and restrictions.
