Subject: Testing of GAF EverGuard Extreme 60mil and 80mil TPO Membranes

Dear Mr. Romano:

United Solar Ovonic has completed its review of testing performed on samples of GAF EverGuard Extreme membranes, 60mil and 80mil thicknesses, in accordance with United Solar Ovonic's standards for approving materials that are suitable for use with Uni-Solar PVL and ePVL laminates.

We are pleased to inform you that use of GAF EverGuard Extreme TPO membrane, 60mil or greater thickness, as presented to us, is hereby approved as an accepted substrate for application of Uni-solar PVL or ePVL laminates. This is considered an approved application for purposes of the standard warranty offered by United Solar Ovonic when applied per United Solar Ovonic's published installation guidelines.

We thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink that reads 'Jon Call'.
