

# Community Contractor

# Community Contractor Initiative

At GAF, we protect what matters most, not only through our products, but as neighbors and partners in the communities where we live and work. Through GAF Community Matters, we leverage our time, talents, products and funds to make a positive difference in the communities across North America. Please consider joining us through the GAF Community Contractor Initiative.

# Community Contractor

## The Community Contractor Initiative now offers contractors three ways in which to become involved with their local Communities:

### Habitat for Humanity Program

By partnering with your local Habitat for Humanity affiliate to install GAF roofs for decent and affordable homes, you're able to show your community that you are invested in the well being of your neighbors.

#### How to participate:

- Register for the GAF Habitat for Humanity Initiative
- Donate your time to install a GAF roofing system on a Habitat for Humanity Project
- GAF will donate materials and a System Plus Ltd. Warranty
- To register visit the Certified Contractor Zone

### Disaster Resiliency Program

The GAF Disaster Resiliency Program prepares you to help educate and equip your customers and your community with the knowledge and tools to be ready for the next disaster that may come their way.

#### How to participate:

- Register on the GAF Learning Portal for the on demand Disaster Resiliency Webinar
- Once you have completed the course you will receive your disaster resiliency kit containing materials you can use to educate your customers

### Affordable Housing Reroof Program

GAF now offers our contractors a unique opportunity to partner with local 501(c)(3) nonprofit organizations of your choice in support of community members in need of a roof repair, rehab or complete roof replacement.

#### How to participate:

- Identify the project you want to partner on with your local nonprofit 501(c)(3) organization and determine the roofing needs for the project
- Prior to starting the project Contact your local TM to discuss the shingle needs for the project
- Once approved, GAF will donate shingles directly to the Nonprofit partner for use on the roof installation
