

# Manage “My Team” in the GAF Learning Portal

**Purpose:** To outline the process to assign training to your “team” within the GAF Learning Portal.

## IMPORTANT

- Each person you wish to assign training must first create a GAF Learning Portal profile and be correctly attached to your company.
- You will be listed as the “Manager” – even if you are not the user's direct manager at your workplace, this is the terminology used within the system.

## Contents:

[Inviting users to your Team](#)

[Managing users on your Team](#)

[Assigning training to your Team](#)

[Viewing reports for your Team](#)

## PLEASE NOTE:

Users cannot see “Assigned Training” within the GAF Learning Portal separately from other training they are enrolled in. This is a system limitation, unfortunately.

On the homepage, users will see training they are enrolled in (whether assigned or self-enrolled) under **To Do**.

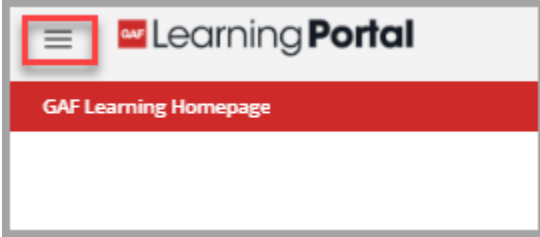

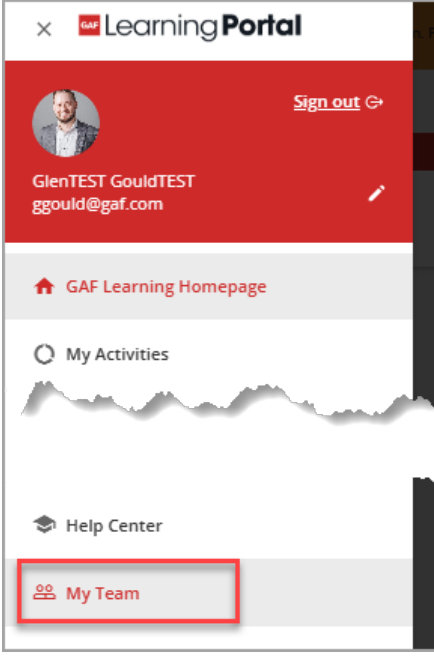

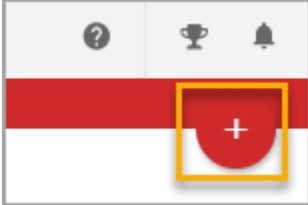

If you have set a deadline for the assigned course, users will see those courses specifically under the Deadlines column (highlighted):

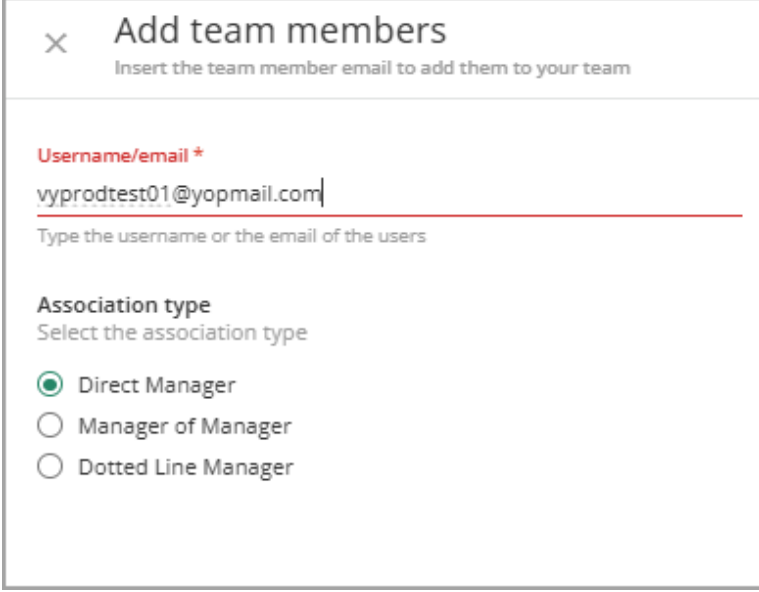

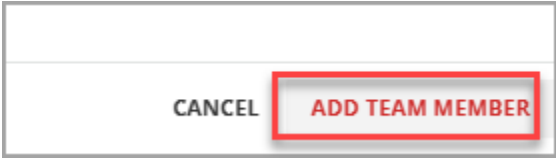

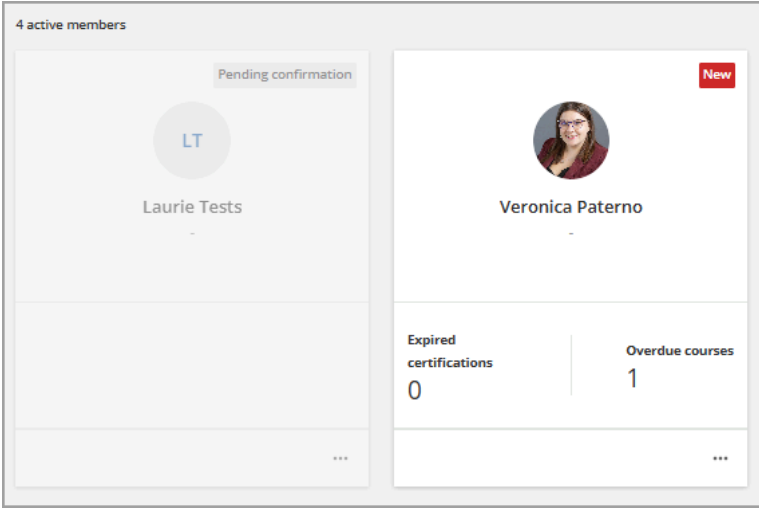

**Continue Learning**

Pick up where you left off, or click on a completed course to download the Certificate
