

PVC Systems

EverGuard® PVC Smooth Membranes — Premium performance and durability, suitable for all types of single-ply systems including mechanically attached, fully adhered, and induction welded.

Guarantees are available up to 30 years.

- Excellent long-term weathering and UV resistance
- Easy to install
- High flexibility
- Increased protection against chemicals compared to other single-ply membranes*
- Excellent heat-welded seam strength
- Enhanced fire protection is exhibited when tested in accordance with Class A E108, where specific EverGuard® PVC roofing assemblies demonstrated the capability to extinguish even when the flame source remains applied to the assembly
- Potential cooling costs and urban heat island effect reductions, thanks to a highly reflective and emissive white surface (white membranes only)†
- Guarantees are available up to 30 years for qualified systems‡

	Thickness	Unit Size	Item #	Weight / Roll	Rolls / Pallet	Rolls / Truck
EverGuard® PVC	50 mil	10' x 100' (3.05 m x 30.5 m)	826A	318 lb.	7	112
		5' x 100' (1.52 m x 30.5 m)	826B	159 lb.	8	224

		5' x 80' (1.52 m x 24.4 m)	82G1	211 lb.	10	160

PVC KEE Systems

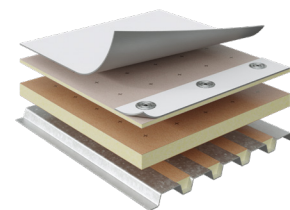

GAF PVC KEE (Ketone Ethylene Ester, aka Dow ELVALOY™ KEE) uses a highly flexible solid polymer as a plasticizer. PVC KEE membranes can help resist dirt pickup, mold/mildew growth, and help maintain roof reflectivity, and are often specified in applications that call for increased protection against chemicals such as grease, animal fats, and jet fuel.*

All the benefits of PVC, plus:

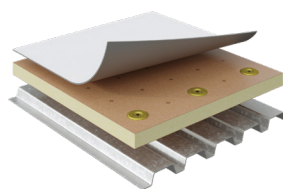

- Improved cold-weather flexibility
- Long-term weathering
- Increased resistance to chemicals, grease, and jet fuel*
- Eligible for GAF guarantee systems up to 5 years longer than similar roofing systems using standard PVC‡
