

Repair & Maintenance

Right-sized Roof Repair Solutions

Building roof repair solutions around you

Handy aerosol primer, cleaners, and adhesives.
A hand-held battery-powered welder.
Self-adhered accessories and flexible flashings.
These are just a few ways we're building right-sized roof repair solutions around you.

We protect what matters most™

Right-sized roof repair solutions

No matter how big or small your operation, sending a crew for a simple repair can throw a wrench into a profitable day. What if you could **send ONE roofer** because their repair kit fits into a big ol' knapsack? Send them out with the NEW **lightweight and compact GAF Commercial Maintenance and Repair line** of products. We're building right-sized roof repair. Around you.

Building resilience into your business model

While the products you choose can help make **buildings** more resilient, the projects you choose can help make your **business** more resilient.

Whatever the economic outlook, being prepared to offer an efficient maintenance and repair service can help diversify your business, and help keep your cash flow humming.

Plus, providing valuable maintenance and repair services helps **maintain profitable relationships** that can lead to new business.

Industrial strength in the palm of your hand

Lightweight aerosol primer, cleaner, and adhesives do the job of heavy canisters and buckets, at a fraction of the weight, with no time-consuming hose or brush cleaning.

- **Aerosol TPO Seam Cleaner**

helps prepare TPO for heat-welding by cleaning exposed or contaminated seams

- **Aerosol EverGuard® TPO Quick Spray Adhesive** is a

sprayable, solvent-based contact adhesive for bonding smooth TPO membranes to various substrates. Also available in a low VOC version, Everguard® TPO Quick Spray LV50 Adhesive.

- **Aerosol EverGuard® TPO Primer** helps prepare metal and membrane for application of self-adhered accessories and sealant

Weld TPO and PVC **without hauling a generator**

Great for small jobs and repairs, the **GAF Backpack Welder** lets you get on and off the roof faster and easier, with no generators to set up, no messy fuel, and no awkward power cords to run.

Each GAF Backpack Welder includes a BAK LiIon Battery Powered Welder, your choice of one or two batteries (priced accordingly), and a charger, all securely stowed in an exclusive roomy, durable backpack. The backpack has plenty of pockets for supplies needed for a repair, including patches, aerosol TPO Seam Cleaner, aerosol EverGuard® TPO Quick Spray Adhesive, and aerosol EverGuard® TPO Primer. It's ideal for a one-person, one-trip-up-the-ladder.

Mold and stick — **in a flash**

Everguard® SA Flexible Flashings self-adhered EPDM flashings eliminate the need for welding, and accelerate installation. Easy to use, moldable, and compatible with TPO membranes, Everguard® SA Flexible Flashings are the lightweight, labor-saving solution to a wide range of flashing repairs.

No job is too small... unless it is

- What if you could **send ONE roofer** — instead of a small crew — to address concerns of an important customer?
- What if they could **use a car** instead of a truck because all the equipment they need fits in the trunk?
- What if you **stopped worrying about waste** because the primer, cleaner, and adhesives you need come in standard air-freshener-sized aerosol cans?
- What if single-ply flashings were as **easy to work with as putty**? No primer, no welding, no resistance. Just clean and shape.

Weigh **the opportunity**

	Full-Sized	Right-Sized
EverGuard® TPO Seam Cleaner	8.25 lb. (1 gal)	15 oz. aerosol
EverGuard® TPO Quick Spray Adhesive	13.65 lb. (6.2 kg) 3 sq. canister + Gun and Hose, and Cleaner	14.2 oz. aerosol
