GAF Drill-Tec™ RhinoBond®
Attachment System Sell Sheet
(COMDT225)

Updated: 9/17

Quality You Can Trust…From
North America’s Largest Roofing Manufacturer!™
“Your Fast-And-Easy Option For Fastening Single-Ply Membranes”

**Increased Productivity**... installs in half the time as traditional adhesives. Faster dry-in.

**Saves on Materials**... no half sheets needed, fewer fasteners

**Helps Reduce Risk**... non-penetrating fastening system which can help reduce installation errors

**Consistent Installation**... machine beeps, alerting the user the sheet is welded

**Excellent Wind Uplift Performance**... spreads the wind load evenly across the roof

The Drill-Tec™ RhinoBond® Attachment System allows roofers to achieve the look and performance of a fully adhered roof at nearly the cost of a mechanically attached system. This system is designed for use over many insulation systems: EnergyGuard™ Polyiso, EnergyGuard™ HD/HD PLUS Polyiso, DensDeck® Prime, Securock®, high-density wood fiber board, and plywood.

### A. RhinoBond® Induction Welding System
Non-penetrating fastening system for TPO and PVC single-ply roofing.

### B. RhinoTrac® Automated Installation Tool
For use with Drill-Tec™ RhinoBond® TPO & PVC X-HD Plates
Drill-Tec™ RhinoBond® Attachment System

**Single-Ply Membrane Application**

A. EverGuard® TPO, EverGuard Extreme® TPO, or EverGuard® PVC Reinforced Membrane
B. GAF Drill-Tec™ RhinoBond® Plates and Fasteners
C. Insulation or cover board
D. Approved roof deck

**Professional’s Best Choice**
- No Fastener Penetrations... in field or seams of the membrane
- No Adhesives... no waiting for cure, no fumes, no mess, no empty pails
- No VOCs... safer for the environment, non-polluting LEED® credit eligible
- Less Flutter... optimized attachment across entire sheet
- No Flammable Storage Issues... at shop, transport, or on roof
- Faster Install... quick dry-in; staged installation option
- Fewer Hassles... no half sheets in perimeter — and fewer seams too
- High Wind Uplift Capability... FM-approved system details available
- Backed by GAF, North America’s largest roofing manufacturer

**Install Single-Ply Membranes in Four Easy Steps**

**Step 1**
Attach insulation or cover boards to deck using Drill-Tec™ RhinoBond® Plates and Fasteners.

**Step 2**
Roll out EverGuard® TPO 45, 60, or 80 mil membrane or EverGuard Extreme® TPO 50, 60, 70, or 80 mil membrane.

**Step 3**
Place RhinoBond® tool over coated plate... and push the button. Wait about 5 seconds for the beep.

**Step 4**
Clamp with special magnetic clamp...repeat.
