

Description:

Enhance safety and visibility with Crossgrip™ PVC, a heavy-duty walkway system designed for flat roofs. This slip-resistant matting provides durable protection in inclement weather and features a diamond-cut pattern with cross-directional top ribs for exceptional grip, making it the ideal protection mat for high-level roof walkways.

Storage and Handling:

Rolls are shipped in heavy-duty cardboard. Store in a dry and covered elevated position.

Technical Information:

Property	Details
Chemical	Resistant to most acids, alkalines, and oils.
Composition	Flexible polyvinyl chloride (PVC)
Flammability	UL 94 HB self-extinguished (material ignited but stopped burning prior to reaching the timing zone) / No-burn rate, UL 214 self-extinguished but did not reach the burn point.
Reversion	Thermoplastic shrinkage can result in size reductions up to 2%. This may be accelerated in hot environments.
Slip Resistance	ASTM E303 dry/wet with lines along lines across 74-94 / 58-80
Thermal	Designed for performance at temperatures from -9°F and up to +140°F. Slight size variation may occur at temperature extremes.
UV Light	Resistant to PVC degradation
Wind Resistance	When loose laid, Crossgrip™ PVC can withstand wind up to 60 mph in accordance with ASTM D3161-16

Advantages:

- Anti-slip surface helps reduce slips and trips by providing a firm grip underfoot.
- Clear walkway delineation
- Helps protect the roof membrane
- Quick and easy installation — simply unroll and go

Product Application:

- Loose laid

Uses:

Crossgrip™ PVC is designed for use on low-slope roofs.

Testings and Approvals:

- Tested slip resistance — ASTM E303
- Tested for wind-resistance — ASTM D3161-16

Product Specifications

Height	9/16" (14 mm)
Standard roll options	3' x 33' (0.91 m x 10 m)
Weight	1.3 lb. / sq. ft. (6.6 kg/m²)
Color options	Yellow or Gray
Rolls per Pallet	6
Full Pallet Weight	Approx. 816 lb. (370 kg)

Item SKUs

Gray	852F345
Yellow	852F902
