

Perimeter Edge Metal

RapidEdge Program

EverGuard® One Edge Fascia, EverGuard® EZ Fascia, and M-Weld™ One Edge Fascia are snap-on fascia systems that eliminate crimping, reduce installation time, and can be used on single-ply and asphaltic roofing systems to provide excellent protection from wind and water penetration at an economical price. **When you order select products in Express Colors, we'll process your order within three business days!***

EverGuard® One Edge Fascia and M-Weld™ One Edge Fascia

- Designed for use with single-ply membrane and modified/built up roofing systems.
- Available with formed covers, EverGuard® One Edge Fascia (Aluminum, Steel) sizes range from 4" (102 mm) – 8" (203 mm) face heights and M-Weld™ One Edge Fascia (Aluminum, Steel) come in standard face heights between 5" (127 mm) and 8" (203 mm).
- Fascia covers and retainers are supplied in convenient 12-ft. (3.65 m) lengths.
- Retainers are self-locating with pre-punched slots to accommodate thermal expansion and contraction. Retainers are made of 20 gauge galvanized steel.
- Fasteners supplied.

EverGuard® EZ Fascia

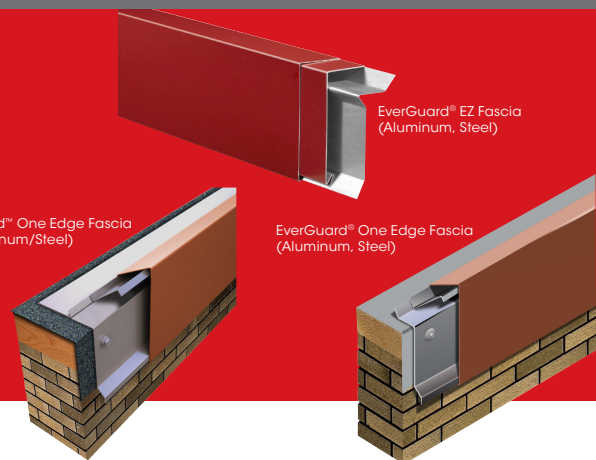

- Designed for use with single-ply roofing systems.
- Available in 4.75", 6.25", and 7.25" face heights to accommodate most building designs.
- Fascia covers and retainers are supplied in convenient 12-ft. (3.65 m) lengths.**
- Retainers are self-locating with pre-punched slots to accommodate thermal expansion and contraction. Retainers are made of 20 gauge galvanized steel.
- Matching splice plates ensure a continuous seal and professional look.
- Necessary fasteners supplied.
