

EverGuard™ PVC GAF T-Joint Cover Patch

Description:

Increase efficiency and performance when covering T-joints along seams of PVC with factory-built EverGuard™ PVC T-Joint Cover Patches. These patches give roofing contractors an effective, easy-to-install detail. GAF manufactures these and other accessories using a proprietary formulation designed for use with GAF EverGuard® PVC and EverGuard® PVC KEE single-ply membranes. These accessories can help you reduce installation costs, risk of leaks, and callbacks, while helping you create a uniform look.

- Available colors: White, Gray, Tan, and Energy Gray

Application:

EverGuard™ PVC T-Joint Patches can be installed on mechanically attached, adhered, or heat-welded EverGuard® PVC and EverGuard® PVC KEE roofing systems. EverGuard™ accessories are installed using conventional techniques. See published application and specifications manual for detailed instructions.

Product Information:

EverGuard™ T-Joint Cover Patches are produced from a proprietary PVC KEE formulation of unreinforced membrane to a nominal 55 mil thickness. They are engineered to work with EverGuard® PVC and EverGuard® PVC KEE to create a membrane seal over T-joints that arise when installing a 60- or 80-mil system.

Specifications

Membrane thickness	.055" (1.40 mm)
