Timberline UHDZ® Shingles

Benefits:

- Patented **Dual Shadow Line** for dramatic sunset shadows all day long
- **30-year StainGuard Plus PRO™ Algae Protection Limited Warranty¹** against blue-green algae discoloration with 10% more time-release algae-fighting capsules
- **LayerLock® Technology** mechanically fuses the common bond between overlapping shingle layers, which powers the **StrikeZone®** — the industry's widest nailing area
- **Up to 99.9% nailing accuracy** — the StrikeZone® nailing area is so easy to hit that a roofer placed 999 out of 1,000 nails correctly in our test³
- **Up to 30% faster nail fastening** thanks to the industry's largest nail zone³
- **Dura Grip™** sealant pairs with the smooth microgranule surface of the StrikeZone® nailing area for fast tack, and an asphalt-to-asphalt monolithic bond cures for durability, strength, and exceptional wind-uplift performance
- **WindProven™ Limited Wind Warranty²** — when installed with the required combination of GAF accessories, Timberline UHDZ® shingles are eligible for an industry first: a wind warranty with no maximum wind speed limitation
- **UltraMat™** high-performance fiberglass mat technology enhances the shingle at its core and achieves UL2218 Class 4 impact-resistance rating^{4,5}

Dual Shadow Line technology precisely distributes color granules to create two parallel shadow lines, which gives Timberline UHDZ® shingles a thick, ultra-dimensional wood-shake look.

LayerLock® Technology — proprietary technology mechanically fuses the common bond between overlapping shingle layers.
