

The new standard in solar roofing.

We've made choosing solar an easier decision than ever. Elegant low-profile styling enhances the appearance of your home. Best-in-class high-output solar panels deliver optimal performance. Elegance and performance at an affordable price.

And installation is seamless. One contractor can install both the DecoTech™ System and your roofing system. Visit us.gaf.com/solar to find out if there is a GAF Solar Elite Contractor® in your area.

The DecoTech™ System was designed by roofing experts to be installed by roofing experts.

Our low-profile design and Deco Black gloss finish look beautiful on the roof. No loose wires. No gaudy colors. And it's surrounded by an exceptional perimeter protection system to reduce the risk of leaks or animal infestation.

Knowledge is power

Power Output

- The DecoTech™ System uses best-in-class standard modules, which allows it to produce electricity equivalent to typical rack-mounted systems.
- Actual electricity savings will depend on your energy usage, location, utility company, effects of tiered pricing, electricity pricing regulations, surcharges, availability of incentives in your area, and other variables.

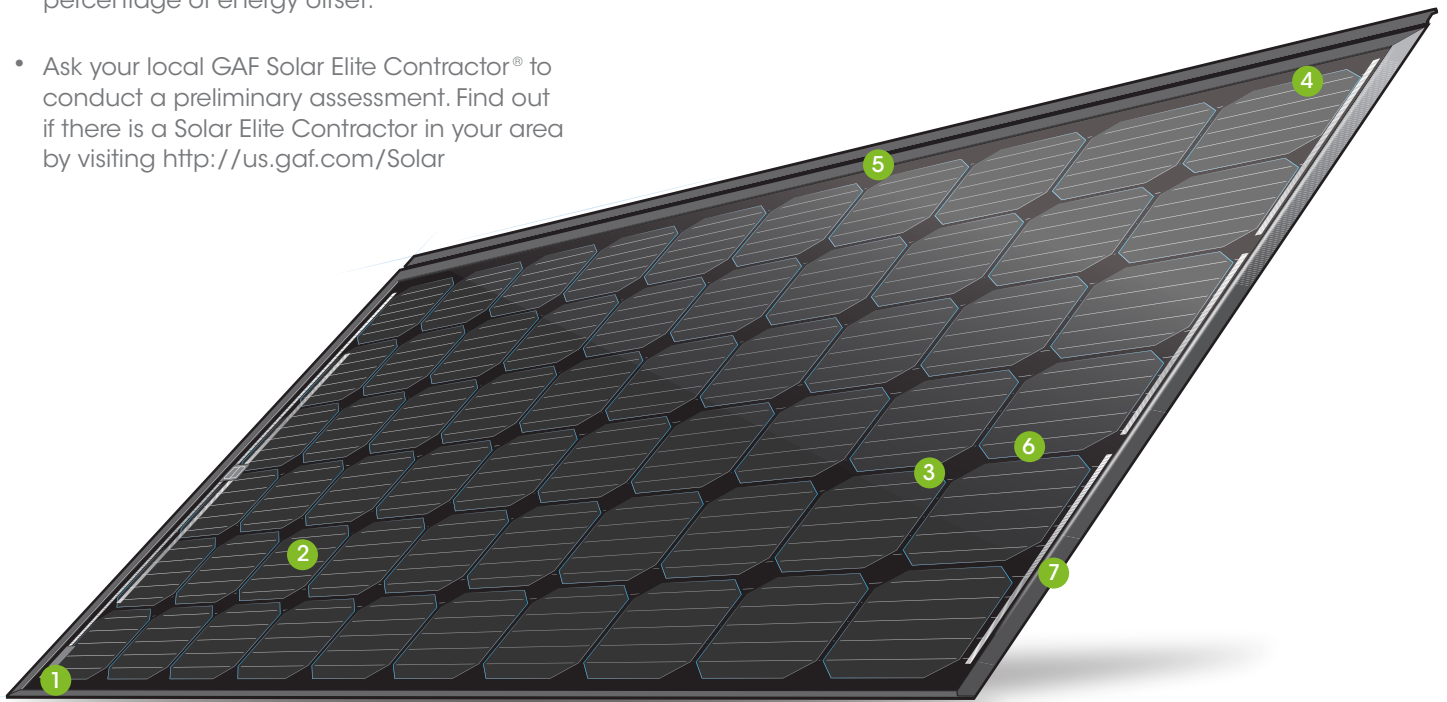

Is DecoTech™ really for me?

- A GAF Solar Elite Contractor® can perform a site survey and walk you through the solar process. The size of the system will depend on your energy consumption, available roof space, and the percentage of energy offset.
- Ask your local GAF Solar Elite Contractor® to conduct a preliminary assessment. Find out if there is a Solar Elite Contractor in your area by visiting <http://us.gaf.com/Solar>

Warranties

The DecoTech™ System is covered by the *DecoTech™ Limited Warranty*, which provides coverage for manufacturing defects in the DecoTech™ System. You may also be eligible for the *GAF Golden Pledge® Limited Warranty and DecoTech™ Addendum*,³ which covers manufacturing defects and misapplication of both the DecoTech™ System and your roofing system. You should review these documents carefully to fully understand your warranty coverage and restrictions.

³ See *DecoTech™ Limited Warranty* and *Golden Pledge® Limited Warranty Addendum For DecoTech™ System* for complete coverage and restrictions.

Financing, Incentives and Tax Rebates

- GAF has relationships with financing providers who can finance your new DecoTech™ System, if you qualify.¹
- Check with your tax advisor and local utility company to see what solar incentives are available in your area.²

¹ Availability of financing subject to lender approval.

² Check with your tax advisor and local utility company about applicability and availability of credits and rebates. Credits and incentives including SRECS may not be available to certain financed solar systems.

- 1 Low-profile designer look
- 2 Deco Black gloss finish
- 3 Best-in-class high-output panels
- 4 Metal frame built to last
- 5 No exposed wires
- 6 Integrated technology to maximize and monitor electrical power output⁴
- 7 Custom flashing helps protect against moisture, leaks, and wildlife infestation
