## PEEL & STICK STARTER ROLL

### Description:

Eave/rake starter strips are one of the most overlooked parts of a quality roofing system. That's because some folks try to use a cut-up strip shingle as the "starter" course on the roof. Unfortunately, cut-up shingles may not have properly positioned adhesive to ensure adequate wind-resistance. They also require cutting and fastening on the roof, which can be time-consuming.

GAF's QuickStart® Peel & Stick Starter Roll is made with high-quality, properly positioned adhesive that tightly locks the shingles in place and helps prevent blow-offs. Its convenient peel-and-stick design allows for fast-and-easy installation, eliminating the need for cutting and fastening on the roof.

### Use:

QuickStart® Peel & Stick Starter Roll is for use with asphalt shingles with exposure of 6" (152 mm) or less.
