

### GRT SOUND ABSORBING PADS

GRT Sound Absorbing Pad adhered to GRT Pedestal

Top of Pad with Peel  
& Stick adhesive

Bottom of Pad

Made of high density closed cell foam insulation, GRT Sound Absorbing Pads help to reduce noise on rooftop amenity decks. They act as a layer of sound proofing between rooftop activity and the living spaces on the floors below. Our GRT Sound Absorbing Pads are easily installed as the top of the pads have peel and stick adhesive that be adhered to GRT Pedestals.

#### MATERIAL and THICKNESS

$\frac{1}{8}$ " high density closed cell foam insulation
