Technical Advisory Bulletin

To: GAF Commercial Sales, GAF Contractors, Field Services, AIS, CARE

From: Technical Services Department

No: TAB-C-49

The Use of Drill-Tec™ 2" Steel Wall Plates for Single-ply Roofing Systems

Where Can I Use Drill-Tec™ 2" Steel Wall Plates?

Drill-Tec™ 2" Steel Wall Plates for single-ply roofing systems can **ONLY** be used in the following locations:

- On walls where there is a hard surface that the membrane is being attached to
- Around penetrations, such as pipes or angle changes
- At wall/base attachments

Important: Drill-Tec™ 2" Steel Wall Plates are **NOT** for use as membrane seam plates in the field of the roof.

Which Types of Fasteners Can I Use?

Use appropriate Drill-Tec™ #12, #14, #15 or CD-10 Fasteners. Fastener type selection is dependent on the substrate that the Drill-Tec™ 2" Steel Wall Plate is being fastened.

Questions?

GAF Technical Services Can Assist You... with these and other questions you may have regarding your new roof installation. Technical Support Services can be contacted at 800-766-3411. The GAF website is a great resource for just about any question you may have or for additional information you may require. Please visit www.gaf.com to find the latest information on our products and their installation.

Important: This document supersedes any prior GAF Technical Advisory Bulletins on this topic. Please always check www.gaf.com to make sure you have the most up to date information.
