**From:** Residential Consumer Services  
**Date:** 05/06/2026  
**Subject:** Master Flow™ SSB960 Metal Super Slant-Back Roof Louver WUI Compliance

The 2024 International Wildland-Urban Interface (WUI) Code (Section 504.10.2) and the 2025 California WUI Code (Section 504.10.2) prescribe that off-ridge roof vent openings must be covered with noncombustible, corrosion-resistant mesh with opening sizes ranging from 1/16" to a maximum of 1/8".

GAF Master Flow™ SSB960 Metal Super Slant-Back Roof Louver, when equipped with the optional internal non-combustible metal screen, meets these prescriptive requirements of the 2024 International Wildland-Urban Interface Code and the 2025 California Wildland-Urban Interface Code.

For product details and specifications, refer to the [GAF Master Flow™ SSB960 Metal Super Slant-Back Roof Louver](#) data sheet.

GAF can be contacted at 877-423-7663. The GAF website is a great resource for most questions you may have or for additional information you may require. Please visit [gaf.com](http://gaf.com) to find the latest information on our products, installation, and warranty terms.
